

EMPOWER[®]

EMPOWER[®] 8 MIL NITRILE EXAM GLOVES

Empower is an 8 mil thick, powder free nitrile exam glove designed to provide extra protection and stronger resistance to wear and tear on the job. The glove fingers are double and almost triple in thickness in comparison to some of the commonly used nitrile gloves.

With extra thickness, Empower nitrile glove is more durable and allow you to work on “rougher” jobs and keep your hands protected and safe.

It is great for EMS, law enforcement, correctional facilities, laboratory, mid to heavy mechanics and industrial applications. It also meets the single-use emergency medical examination glove requirements of NFPA (National Fire Protection Association) standard on protective clothing for emergency medical operations.

Suitable for
Automotive
Aviation / Marine
EMS / Fire Dept.
Healthcare
Industrial / Manufacturing
Laboratory
Law Enforcement
Plumbing / Painting
